

AutoDownload System Requirements

The AutoDownload system requirements are set by the recommendations by Microsoft for their software that AutoDownload requires.

AutoDownload can run on Windows 10, Windows 8 and 8.1, Windows 7, Windows Vista, Windows XP, Windows 2000, Windows Server 2012, Windows Server 2008 and Windows Server 2003. We do not support older versions of Windows but we are told that it works on Windows 98.

All Computers

All PCs that will have AutoDownload on require .NET Framework 2. The requirements are given below.

More information at <http://msdn.microsoft.com/en-us/library/aa480241.aspx>

Type	Minimum	Recommended	Comments
Processor	400 MHz	800 MHz or above	
Memory	96 Mb (Client) 128 Mb (Server)	256 megabytes (Mb) or above	
Hard Disk Space	280 megabytes (Mb)	1 gigabyte (Gb)	32-bit version
Hard Disk Space	610 megabytes (Mb)	1 gigabyte (Gb)	64-bit version
Display	800 x 600 256 colours	1024 x 768 High Colour (16-bit)	

For server / single machine setup (PC with database)

One computer will also need to have the database on it. We recommend:

- SQL Server Express 2012 – Windows 7, 8, 8.1 and 10
- SQL Server Express 2005 – Windows Vista and XP
